EDUCATION

Gokaraju Rangaraju institute of Engineering and Technology	Cumulative GPA - 7.3
Bachelor of Technology in Electrical and Electronics Engineering(2022-2026)	
Master Minds Junior College	Class XII with 85%
Intermediate in MPC(2020-2022)	
Sahasraa High School	Class X with 100%

SKILLS

- **Programming Languages:** Basic C, Python and SQL.
- **Data Analysis:** SQL, Pyspark, Data cleaning, Data Validation / Reporting.
- **Microsoft Fabric:** Data Factory, Onelake, Medallion Architecture, PySpark and ETL/ELT.
- **Azure AI:** Azure Openai, AI Foundry (model selection and integration), RAG(AI search).
- **BI & Visualization:** Power BI, Data Modeling, KPIs, Dashboarding.
- **Frameworks & Tools:** Reactjs, RESTAPI, Streamlit, Git, Github, Postman(API Testing).

WORK EXPERIENCE AND ACTIVITIES

- **Founding Developer, Execron** (*Early stage Tech Startup aimed to ship AI-Infused products focused at solving real industry-level gaps*)
- **Curation Lead, TEDx GRIET** (Fostering a Culture of Idea Sharing)
- **Workshop Lead, MakerFaire Tworks 2023** (Coordinated simultaneous execution of 77+ workshops across event teamst)

PROJECTS

Sterling Oil & Gas – End-to-End ETL Data Pipeline & Analytics | Microsoft Fabric | Azure AI

github.com/sandeepmegharaj/Sterling-Financial-Analytics-Power-BI-Fabric.git

Live Demo: Analysis & Report

- Built an end-to-end Microsoft Fabric ETL pipeline for ingestion, cleaning, transformation and analytics.
- Implemented Medallion Architecture (Bronze–Silver–Gold) and pipeline orchestration.
- Processed 3,744 production/downtime records and 288 cost/value records.
- Developed two tool-using AI agents with RAG(AI Search) for production analysis and cost/value analysis.
- **Tech:** Microsoft Fabric, PySpark, SQL, Lakehouse, Power BI, Azure AI, Azure Foundry.

DeepAgent AI Research Data Analysis Agents (github.com/sandeepmegharaj/Deepagent.git)

Live Demo: deepagent.streamlit.app/

- Built a multi-agent AI assistant with Python, Streamlit, LangChain, Azure AI.
- **Subagents:** research-agent, structured-researcher, and data-analyst
- Kept token use cost-efficient with concise prompts and focused subagent tasks.
- Data Lab analyzes uploaded CSV/JSON/Excel files, flags quality issues, and exports HTML dashboards.
- Integrated Azure AI model GPT-5, Tavily for Scraping and Langchain Libraries.

ACHIEVEMENTS AND CERTIFICATIONS

- **Certified Microsoft Fabric Developer, Agentic AI, GenAI Full Fledged** (Udemy),
- **Finalist** (Top 5) at HACKATHON 1.0 International level hackathon, SPEC HYD (Dec 2025)
- **Participated** at Gen AI Exchange Hackathon, Google Cloud (Oct 2025).
